

Try it out! Below are a few **Model and Part Numbers for you to try...**(or try some from your own home!) Simply enter the number in the appropriate field, select the appropriate category, and get started.

NOTE: If you choose to use your own model numbers, please note that Kenmore model numbers are proprietary and require call center assistance to locate part numbers. However, if you already know the part number for the Kenmore appliance, you can simply enter it in the part number search field

- Model: agr5835qdg (Appliance - range) Check out the diagrams! Try locating the part number for the knobs through the diagrams
- Model: 1000e (Lawn & Garden - edger) Notice on the diagram, you would need a "Type" number from the model tag in addition to the model #
- Part: 4396508 (Appliance - water filter) "P" = 2 pack; "T" = Three pack; "BULK" = 12 pack
- Part: C9351AN (Electronics/Plus - Ink cartridge) notice the lower cost alternative by NUKOTE
- Use the following Refrigerator tag and locate a replacement bin (drawer). Zeroes and the letter "O" can be hard to distinguish. If you try one and there is no match, try the other. (Hint: it is the number zero in the model number)

- Use the following Trimmer tag and locate a replacement shroud assembly. Be sure to select the diagram for the serial number shown. Also, note the prefix that has been added in front of all part numbers

- Use the following Microwave tag and locate a replacement glass tray. Select the proper diagram to help you locate the reference number of the part. (Hint: Cavity)
