

Situation: Received additional NXT clickers to expand your set and need to renumber them (eg. 33-40)

Equipment Present: NXT Clickers and Turning RF+ or RF Receiver

Step-by-Step Instructions:

1. Access the NXT cards that you want to change numbers.
2. Power on the first NXT card to be changed by pressing the Enter button.
 - a. If the NXT card is locked, unlock before proceeding – CHAN-ABC-ABC-CHAN.
3. Press the button under the Wrench icon.
4. Press the R arrow button twice.
5. When the LCD screen displays “Device Info” press Enter.
 - a. This will display the cards programmed Device ID (or clicker #).
6. To change the Device ID, press the following buttons in quick succession.
 - a. **CHAN-CHAN-ABC-ENTER**
 - b. At that point a blinking cursor should appear on the LCD screen.

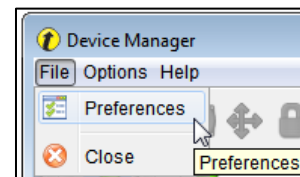

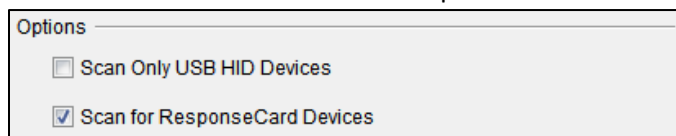

7. Key in the desired clicker # (33-40) and press ENTER or OK.
8. Finally, press the button under the Back Arrow twice to return to the main screen.
9. Repeat Steps 2-8 for all clickers you wish to change numbers on.

Confirm Settings to Ensure Turning RF Receivers Connect to TPC:

1. From the Device Manager window, click **File → Preferences**.
2. **Uncheck** the box titled “Scan for ResponseCard Devices.”

3. **Exit out** of Device Manager.
4. **Exit out** of TPC and **restart**.
5. Once logged back in, you will see that your Turning RF receiver is connected to TPC.
