

#### CELT's Faculty Idea Exchange

Mathematics Instructors, Amanda Bartels and Ashley Martin are presenting: "JCC's math courses: Everything you need to know about content, placement, and advisement".

Wednesday, January 28th

Noon-1:00 p.m.

Cattaraugus Campus, Magnano Reception Room

At this session, Ashley and Amanda will discuss all aspects of JCC math courses. Topics will include placement tests, advisement, and course content. We will discuss the various math placement tests and what the results mean for students and advisers. Advisement topics will include choosing the correct math course for students, and identifying the correct math track for students. Course content information will allow you to familiarize yourself with the expectations of students at different levels, in order to better plan for your own classes.
